# Revealing Bangkok Airways

Thailand has the name The Land Of Smiles. Aside from friendly people, Thailand is also a shopping paradise. If you are planning to buy [digital cameras, laptop computers, Coach handbags or just about any products, you'll be able to come across good deals in Thailand. As far as travel to Thailand goes, Bangkok airlines as provided convenient comfortable accommodations for many years to this location as it has increased in popularity for both business and vacations alike. No matter where youre coming from, there are many good reasons to visit Thailand, and this airline has a reputation for providing safe, comfortable and courteous service to passengers. In this article, well be looking at some of the features of Bangkok Airways that have contributed to its popularity.](#)

In the beginning (1968) Bangkok Airways was known as Sahakol Air providing only in country commuter flights for businesses seeking oil and gas natural resources available within the country.

The airline began domestic flights before changing to Bangkok Airways in 1989 which then allowed them to increase services to destinations throughout Asia. This made it possible for travelers both national and international to move about the country with ease as well as move around other parts of Asia as well. This airline of course has quite a lot of experience transporting travelers to and from Thailand.

Not to mention this airline offers both commercial and charter flights throughout the indo china region with one way and round trip options. When you need to pick your time or location a charter flight is definitely the most convenient route of travel by plane for both business and pleasure purposes.

Another benefit of charter flights is that you get to pick the group you travel with and stay together. Bangkok Airways has a lot of experience planning personalized flights within Thailand and all over Asia, so its a wise choice if you want to have your trip completely customized. You should contact them even if your charter needs are only for yourself or a small group of people.

Thailand is a country that has a lot to offer tourists, backpackers and business travelers alike, and Bangkok Airways can take you to all the major destinations. The airline provides frequent flights to every part of this exciting country, so you can hop from one spot to the next with ease. Thailand is an extremely diverse country, with a great deal to offer you, no matter what your interests. Few countries offer so much diversity, whether you appreciate great food, history, architecture, mountains or just relaxing on the beach. Bangkok Airways gives you access to all of Thailands rich offerings, whether you want to visit museums and temples or swim in the ocean. As we can see from this article, Bangkok Airways is quickly becoming one of Asias hottest airlines. Bangkok Airways is playing an important role in meeting the demand for excellent service to and in Southeast Asian countries, including Thailand, as the demand grows due to the increased popularity of these areas among travelers. Irrespective of the reason for your trip, if you will be travelling to this part of the world you need to take time to see what this airline can do for you.
